

DEPENDABLE

BEING **DEPENDABLE** IS MORE THAN A POSITIVE TRAIT. TO MANY OF OUR CUSTOMERS IT IS A CONSTANT STATE OF AWARENESS THAT EMPOWERS THEM TO ANTICIPATE, PREVENT, MITIGATE OR REACT IN A FLUID SITUATION.

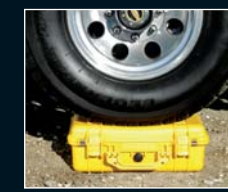

OUR WORK HERE AT PELI IS NOT VERY DIFFERENT. WE DO HAVE AN IMPORTANT JOB: MANUFACTURING THE BEST PROTECTOR CASES™ AND LIGHTING TOOLS THE WORLD HAS EVER SEEN. BECAUSE IN THE END, OUR PRODUCTS HAVE TO BE AS DEPENDABLE AS THE PEOPLE WHO USE THEM.

> ULTIMATE EQUIPMENT PROTECTION FROM THE ELEMENTS.

STRONGER BY DESIGN

Peli Protector Cases™ are made from Copolymer Polypropylene, using an open cell core and solid wall construction, which is actually stronger and lighter than a solid core wall. Peli's moulded structure, multiple heavy duty 'fins' and flexibility offer extra protection so that the impact of a shock is evenly dispersed, keeping the internal equipment safe. Stainless Steel pins are used for hinges and handles. Their Double-Step latches are smarter and easier to open: the patented design works like a pry bar to start the release and offers plenty of leverage to open with a light pull. You will know it's a Peli™ Case by its distinctive dual band top surface and pressure valve. Travel light with heavy protection.

Stronger Double-Step Latch

WATERTIGHT

The secret is the tongue-and-groove fit, with a Polymer o-ring acting as a waterproof seal. Also, the Automatic Pressure Equalisation Valve releases built-up air pressure while keeping water molecules out, resulting in a watertight case that is even easier to open after pressure changes.

EASY RIDING

Stainless steel ball bearing wheels (on select cases) last longer and ride smoother. The nylon hub adjacent to the stainless steel is made to resist heat. Result: less wear and tear on the polyurethane wheel.

STAINLESS STEEL BALL BEARING WHEELS
NYLON HUB
POLYURETHANE TIRE

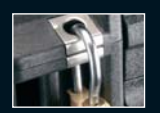

EXTRA PROTECTION

Peli Pick N Pluck™ foam lets you customise the interior according to your gear. An easy, do-it-yourself system for custom-shaping the interior of the case according to your equipment. Layers of foam are pre-scored in tiny cubes. Simply measure your equipment over the grid and pluck away. Contents stay in place and get extra protection at the same time. You can also protect the interior of your case with padded dividers.

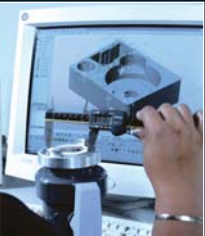

KEEP IT SHUT

Metal reinforced padlock protectors provide added strength and extra security against cutting and theft.

PANEL FRAME MOUNTING SYSTEM

Peli™ offers an easy solution for installing interface panels to any Peli Protector Case™. Our mounting bracket installs beneath your panel and fits against stops moulded inside the case walls. With pre-drilled holes and stainless steel screws, fabricating a custom case is faster, stronger, and more accurate. For a better fit, our engineers will map the layout of your equipment for custom foam inserts. Just send the actual equipment or a CAD drawing of the part, and we can suggest several layouts and foam choices. Once you decide the best option, the foam insert can be die-cut and installed in a matching case. Please contact us or visit www.peli.com

Receive interior dimensions in any CAD format via e-mail

CUSTOMISE IT

Electronic interface panels Perfect protection insert Your logos

Customise your case to hold electronic interface panels, or create the perfect protection insert for your equipment. Close the lid and see your logo applied as a decal or hot stamp (For further information, please contact us).

CERTIFICATIONS

Peli™ Cases have been tested by several government and private organizations and they have passed the most strict quality tests. They needed to make sure that the cases complied with their requirements with respect to protection against knocks, immersion, humidity, corrosion, stacking and drop resistance. Now most of Peli™ Cases are NATO codified and handle several certificates:

- STANAG 4280 - DEF STAN 81-41
- MIL C-4150-J
- ATA (Air Transportation Association) - Specification 300
- NATO Stock Number (NSN)
- Ingress Protection (IP) codes - EN 60529:1992

For further information, please contact Peli Products S.L.U.

> MEET THE OTHER HALF OF PELI

- MARINE / NAUTICAL
- MILITARY
- LAW ENFORCEMENT
- FIRE
- INDUSTRIAL / SAFETY AT WORK
- OUTDOORS

The same durability and ingenuity built into every Peli case also sets our torches apart. We're illuminating the world's darkest and most dangerous places with specialised lighting tools:

- Safety approved lights for hazardous areas
- Tactical lights for military and law enforcement
- Specialised solutions for Fire and Rescue
- Submersible lights for diving
- LED Area Lights

PELI GUARANTEE OF EXCELLENCE

Peli Products, S.L.U. guarantees its products against breakage or defects in workmanship. Peli™ injection moulded cases are guaranteed to be watertight to a depth of 1 meter (3.3 feet) for 30 minutes (IP 67) if properly closed with undamaged o-ring in place unless otherwise stated. Peli's liability is limited to the case and not its contents or foam. All warranty claims of any nature are barred if the container has been altered, damaged or in any way physically changed, or subjected to abuse, misuse, negligence or accident. Refer to www.peli.com/en/content/guarantee-excellence for full details.
